## RIDGISTORMSeparate-X4

RIDGISTORMSeparate-X4 is a proprietary multi-process treatment system, used for the treatment of surface water run-off, providing high levels of contaminant removal, including hydrocarbons and heavy metals.

Four different processes include sedimentation, filtration, chemical separation and oil retention; delivering clean water back into the environment.

## RIDGISTORM-X4 Surface Water Treatment Devices

RIDGISTORM-X4 is a 4 stage treatment device, used for the treatment of surface water run-off, providing high levels of contaminant removal, including hydrocarbons and heavy metals. Utilising a number of processes the RIDGISTORM-X4 Stormwater Treatment System consistently provides proven levels of protection for
